PROFILE

Computer Science and Engineering graduate with strong skills in machine learning, programming and digital design. Experienced in developing data-driven projects and creating engaging visual content through graphic design, photo editing and web development, with a strong focus on creativity, problem-solving and continuous learning in dynamic and collaborative environments.

EDUCATION

B.Sc. in Computer Science and Engineering, Premier University	2022 – 2025 CGPA : 3.26
---	----------------------------

Higher Secondary Certificate, BAF Shaheen College	2018 – 2019 GPA : 5.00
---	---------------------------

Secondary School Certificate, PDB High School	2016 – 2017 GPA : 4.83
---	---------------------------

PROFESSIONAL EXPERIENCE

Machine Learning Intern, Codveda Technologies	Mar 2026 – Jun 2026 Remote
- Applied ML techniques to real-world datasets and preprocessing. - Developed ML pipelines and improved model performance.	

SKILLS

Graphic Design
(Illustrator, Photoshop)

Programming
(C, Python, HTML, CSS)

Machine Learning
(Python, Scikit-learn)

Version Control System
(Git, GitHub)

Editing
(Canva, Capcut)

Office Applications
(Word, Excel, PowerPoint)

STRENGTHS

- Strong problem-solving ability with analytical thinking
- Creative mindset for design and visual storytelling
- Quick learner with adaptability to new tools and technologies
- Good communication and teamwork skills
- Self-motivated and continuously improving mindset

PROJECTS

Graphic Design Projects [🔗](#), "Transforming ideas into refined visual experiences, where creativity, precision and purpose come together to create exceptional designs."

Machine Learning Projects [🔗](#), "Built practical machine learning projects showcasing data preprocessing, model development and real-world prediction solutions."

Website Development [🔗](#), "Designed and developed modern, responsive websites featuring intuitive UI, scalable functional solutions and seamless user experiences."

COURSES

Professional Graphic Design [🔗](#), UY Lab

Completed professional training in graphic design covering branding, digital graphics, image editing, typography, color theory, layout and creative design techniques.

Started with Microsoft Excel [🔗](#), Coursera

Developed foundational skills in Microsoft Excel for data entry, spreadsheet management and basic data analysis useful for business, academic and professional tasks.

Basics of Machine Learning Algorithms [🔗](#), UniAthena

Learned fundamental machine learning algorithms including supervised learning, model evaluation and data analysis techniques for predictive modeling and AI applications.

INTERESTS

- Content Creation
- Photography [🔗](#)
- Reading Books
